Profile

Experience Software Tester with outstanding testing skills, working as part of a team performing the manual and automated testing process on software applications to make sure that all errors are detected and corrected before release to clients. I have analytical skills and experience of writing test cases, test scripts and execution of test scripts throughout the life cycle of a project.

I am an efficient team player aspiring to reach a credible height in my chosen field with a well-structured organization through hard work, dedication, teamwork, honesty, and sincerity of purpose and provides adequate room for learning new skills upon experience and personal development.
